

CALIBER INNOVATIONS

FEDERAL & DEFENSE CAPABILITY STATEMENT

SECURE AI OPERATIONS FOR THE DEFENSE INDUSTRIAL BASE

Opportunity-to-execution automation for manufacturers, primes, and mission-driven teams

LEGAL BUSINESS Caliber Innovations LLC Active Florida LLC · Doral, Florida Commercial operating brand: EpixClaw	CONTACT Idael Pineiro, President / GenAI Architect idael@epixclaw.ai · 786-878-2598 Current commercial website: epixclaw.ai
---	---

CORE CAPABILITIES

- Custom AI-agent and workflow automation design, testing, deployment, and managed support
- Computer systems integration across software, communications, cloud, CRM, and enterprise productivity platforms
- Network and infrastructure automation with monitoring, escalation, and recovery controls
- Evidence-backed document workflows, audit trails, approval gates, and human-in-the-loop operations
- Opportunity intelligence, supplier-readiness workflows, proposal support, and operational reporting
- Bilingual English/Spanish implementation and support

DIFFERENTIATORS

ENGINEERING DISCIPLINE 14+ years in enterprise network and automation engineering; eight years of IBM experience.	CONTROLLED AUTOMATION Source-grounded agents, tenant isolation, kill switches, approval gates, and traceable decisions.	FULL LIFECYCLE Architecture, implementation, integration, monitoring, optimization, and ongoing support.
---	---	--

DEFENSE SUPPLIER VALUE

Caliber Innovations helps small domestic suppliers turn public opportunity data into controlled execution: capability matching, bid/no-bid support, evidence collection, workflow orchestration, production-status reporting, and partner coordination. Initial delivery is limited to public and unclassified information unless a separately validated environment is established.

PROPOSED NAICS

541512 — Computer Systems Design Services (primary) • **541511** — Custom Computer Programming Services • **541519** — Other Computer Related Services

SAM.gov registration, UEI, and CAGE status are undergoing readiness verification. Caliber Innovations does not currently claim CMMC certification, NIST 800-171 assessment status, or authorization to process CUI.
